Membership Retention ?

This page will help you set goals to retain existing members and attract new rotarians. Enter the number or the percentage of club members you plan to keep.

Notes about the "Members" Column:

- ✓ For "Existing members retained," when you first enter the goal, this number will be the current number of members in your club. Once you've saved your goal, the percentage will always be based off of this number.
- ✓ For "New members retained," enter the number of Rotarians you plan to induct into your club for the year

Set and Edit Your Goals

	1 JULY START FIGURE	MEMBERS	PERCENTAGE	GOAL TOTAL
Existing members retained	40	42	<input type="text"/> %	<input type="text"/>
Achievement				<input type="text"/>
New members retained	7	<input type="text"/>	<input type="text"/> %	<input type="text"/>
Achievement				<input type="text"/>
Goal Total			%	<input type="text"/>

Your current membership numbers are reflected. Enter the percent that you expect to retain. Fill in the new members you expect to recruit in your presidential year. It is probably safe to assume that 100% of the new members will be retained for the year. The form will calculate the total membership that will exist by the end of your presidential year. It should reflect an increase over current member total.
